## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, drawn to an EL device comprising at least one electrochromic medium layer disposed between a first electrode layer and a second electrode layer, classified in class 313, subclass 504.
- II. Claims 17-21, drawn to an EL device comprising a selective light valve disposed over the displaying area, classified in class 313, subclass 512.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as the electrochromatic layer being used as a hole injecting layer. See MPEP § 806.05(d).

The Examiner notes that the application discloses several materials for use as an electrochromatic layer, including  $\text{MoO}_3$ .  $\text{MoO}_3$  is a known hole injecting material, as further evidenced by Tyan et al. (US Patent 6,917,159; column 26, lines 16-18).

Art Unit: 2882

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
